

At Kiddieswim we pride ourselves on giving your child the best, and most positive, experience in the pool. Classes are graded by ability and age to ensure swimmers are comfortable in their ability, and amongst their peers.

At Kiddieswim we believe in quality, not compromise.

Our infant program will develop your baby's comfort and skill in the water whilst equipping you with the tools to correctly hold and assist them. The program is designed to help young swimmers become mobile in the water.

For children from 3yrs of age, the learn-to-swim program allows swimmers the time and space to extend themselves to a higher standard. Aided by Austswim qualified and experienced teachers, your children will receive constant feedback and encouragement to help them along the way.

Our Mt Martha pool accommodates smaller children in its 33C salt water pool. With in-water teachers and small class sizes, it provides the optimum learn-to-swim environment for beginner & intermediate swimmers.

Once swimmers have developed competency in their Freestyle and Backstroke, they progress to our Mornington centre – where all classes have access to 25m lanes.
